ELSEVIER

TECTONOPHYSICS

Tectonophysics 253 (1996) 321

Contents Volume 253

Research Papers

Fabric development in syn-tectonic intrusive sheets as a consequence of melt-dominated flow and thermal softening of the crust
T.L. Pavlis 1

Analogue models for the transpressional docking of volcanic arcs in the Western Pacific
M. Pubellier and P.R. Cobbold 33

Formation and evolution of the Masirah ophiolite constrained by paleomagnetic study of volcanic rocks
E. Gnos and M. Perrin 53

Reconnaissance paleomagnetic results from western Cuba
M.L. Bazhenov, A. Pszczolkowski and S.V. Shipunov 65

Modelling the effect of arbitrary *P–T–t* histories on argon diffusion in minerals using the MacArgon program for the Apple Macintosh
G.S. Lister and S.L. Baldwin 83

Attenuation of seismic waves in the Trinidad and Tobago area
J.L. Latchman, W.B. Ambeh and L.L. Lynch 111

A detailed study of the active crustal deformation in the Aegean and surrounding area
C.B. Papazachos and A.A. Kiratzi 129

A seismotectonic study of the Burma and Andaman arc regions using centroid moment tensor data
M. Ravi Kumar, N. Purnachandra Rao and S.V. Chalam 155

Constraints on present-day plate motions south of 30°S from satellite altimetry
S. Spitzak and C. DeMets 167

Geothermal investigations in an area of induced seismic activity, northern São Paulo State, Brazil
T.H. Yamabe and V.M. Hamza 209

A new model of upper mantle P-wave velocity below the Baltic Shield: indication of partial melt in the 95 to 160 km depth range
E. Perchuć and H. Thybo 227

A cellular automaton for the development of crustal shear zones
L.-J. An and C.G. Sammis 247

Tectonic evolution of the East Qinling Mountains, China, in the Palaeozoic: a review and new tectonic model
F. Xue, M.F. Lerch, A. Kröner and T. Reischmann 271

Earthquake swarms and dike intrusions off the east coast of Izu Peninsula, central Japan
M. Ukawa and H. Tsukahara 285

Estimating the ages of fault scarps in the Arava, Israel
Y. Enzel, R. Amit, N. Porat, E. Zilberman and B.J. Harrison 305

Announcement 319
